## DORSEN DEFENDS BANDITS ESCAPE; U. S. DEMAND TO WHEAT PRICES

Cites Civil War Precedent of U. S. As Justifying Britain's Present Course

Brownsville, Texas, May 12.—Mexican bandits who last night shot and killed Curtis Dorsen, an American, near Mercedes, Texas, have escaped into Mexico, according to Lieut. F. L. Van Horn, who returned to Fort Brown today after chasing the Mexicans to the Rio Grande. Earlier reports at Fort Brown were that one of the bandits had been killed and two captured.

There were three of the bandits, Lieut. Van Horn stated, and they were trailed to the river by a detachment of American soldiers. No attempt was made to cross into Mexico to follow them.

Alfredo Ricard, commanding the de facto garrison at Matamoros, opposite Brownsville, assured American consul Johnson he would make every effort to capture the bandits.

The position of the British government in this matter is quite clear. They are prepared to allow the dispatch of medical supplies to any American Red Cross unit which may be working for the central powers upon receipt of assurances as to their employment. They are not, however, prepared to allow medical supplies to be generally imported by the enemy.

"It is worth while considering what a general permit to import these supplies would mean. It is clear, in the first place, that it would not only apply to supplies from America. The enemy would be able to draw their supplies in large quantities from all parts of the world.

"It is instructive to consider the record of the German themselves in these matters. In the Franco-Prussian war they did not allow medical supplies to enter Paris and in the present war they prohibit the export of German medical books because they openly professed to be against the enemy's medical supplies.

"They, moreover, have given no indication that they would allow medical supplies to be imported into Great Britain, from which country their submarine blockade is avowedly intended to cut off all supplies.

"Of the legal right of the allies to intercept medical supplies there can be no doubt. Medical supplies never have been regarded in previous wars as entitled to preferential treatment. Thus in the American civil war all medical supplies, including quinine and anesthetics, were prevented from reaching the confederate states."

Wool buying fairly large and prices are firm

Boston, Mass., May 12.—The Commercial Bulletin says: "The wool market has been more active than for some time, with a tendency to advance."

The market for the mill took several million pounds of domestic wool. Bidding has been fairly active, with a tendency to advance, especially in the far west where western clip is being sold at 21 cents and average medium clip of good staple and running fairly to half blood grade, are bringing 20 to 21 cents.

Three of seven sealed tenders came from the dwelling were opened. The tenders contained the bodies of three women, who in the fourth were seven women's dresses. One was identified as belonging to a young woman who had been missing for two years.

There appears to be no doubt that the man died at Khabarovsk, as previously reported. Although he was working, he spent money so generously that he was known generally as the "American Uncle."

U. S. MAY CUT DOWN SIZE OF CAPAGO RESERVATION

Tucson, Ariz., May 12.—The chamber of commerce has been advised by Secretary Lane of the interior department that a federal investigator will be sent here to inspect the allotment of government lands to the Papago Indians for a new reservation. It has been claimed the new reservation is so large and so laid out that it will interfere with the development of the country.

Grains fluctuate slightly, partly owing to heavy rains in southwest.

Chicago, Ill., May 12.—Wheat prices raised today from an early setback caused by a report of a forecast of additional moisture. Opening prices, which ranged from 96¢ to 97¢, with July at 111¢ to 112¢, and September at 111¢ to 112¢, were followed by a moderate decline and then a recovery in full.

Prices closed with July at 111¢ and September at 111¢.

Corn fluctuated with wheat. After opening at 96¢ to 97¢, the market hardened a little all around.

The close was steady at 96¢ to 97¢.

Selling from local speculators had a temporary weakening effect on corn. Prices closed at 96¢ to 97¢.

Higher quotations on wheat lifted prices. Trade was chiefly in local.

Grain and Provisions.
